

Teeth in One Visit

Traditional Dentistry

Mercury-Free Dentistry

We are one of only 3,000 offices nationwide using this amazing, high-tech service. We are now able to make crowns and porcelain fillings in one visit. No impressions or second visit required. The result is a beautiful, natural-colored restoration that is much stronger than before.

Facial Pain

Over 80% of headaches and facial pain is caused by the misalignment of teeth. Dr. Goldstein has trained extensively at the Dawson Center for Advanced Dental Study in the treatment of masticatory system problems. He also studied at the Piper Center, the world's leading authority on TMJ treatment (*Jaw Pain Therapy*). Dr. Goldstein lectures regularly on both subjects.

Surgical Care

Dr. Goldstein has had extensive training in surgery, so there is little need to see a specialist. This ultimately gives Dr. Goldstein full control over the outcome of all surgical procedures.

Surgeries performed on a regular basis:

- Bone, Tissue and Sinus Grafting
- Periodontal Surgery
- Implant Placement and Restoration
- Endodontic Surgery
- Surgical Extractions

The Most Natural Way to Replace Missing Teeth

Dental Implants

Before Implant Dentistry

After Implant Dentistry

Dr. Goldstein has been placing implants for the past 10 years. He is a distinguished Fellow of the International College of Oral Implantology.

Shown here with his wife Donna, and children Zachary, Gregory and Rachael. He is part of a 23-year Randolph area tradition of dental comfort and care.

A devoted dad and family man, Dr. Goldstein is a 1987 graduate of the University of Medicine and Dentistry of New Jersey. He has dedicated his professional career to providing you with the best that dentistry has to offer. Dr. Goldstein is continually educating himself and his staff on the latest techniques and advances to provide you with advanced, state-of-the-art, personalized and comfortable dental care.

Dr. Goldstein is a member of the American Dental Association, New Jersey Dental Association, Tri-County Dental Society, New Jersey and New York Dental ID Team, American Society of Forensic Odontology and the New York Society of Forensic Dentistry. He is also a fellow of the International College of Oral Implantology and currently lectures on the subject of TMJ disorders.

Dr. Goldstein played a vital role in the identification of victims of both the September 11, 2001 attacks on the World Trade Center and the subsequent crash of American Airlines Flight 587. On September 11, 2003, Dr. Goldstein received a commendation from the office of New York's chief medical examiner for his service as a member of the NY Identification Unit.

- Monday 8am – 6pm
- Tuesday 9am – 5pm
- Wednesday 9am – 6pm
- Thursday 8am – 5pm
- Friday (administration only) 9am – 5pm

Emergency Care

Should you need immediate attention or an emergency visit, we will guarantee you a place in our schedule that very day. If you need emergency assistance after hours, please feel free to call Dr. Goldstein directly at **(201) 618-7978**.

Your Referrals

Your referrals are the highest compliment we can receive. We appreciate and welcome your patient referrals and will always make time to see a friend or relative. With each referral, a \$50.00 credit placed on your account is our way of saying *thank you!*

Cancellation Policy

We require a minimum of 48-hour notice when cancelling any appointment 30-45 minutes in length. One week's notice is required when cancelling any appointment one hour or longer in length. Should you fail to give us the necessary time needed, a cancellation fee will be applied.

Simply Call Today for Your Preferred Appointment

Please call us today to reserve your appointment for personalized dental care. Simply call **(973) 895-7995** and we will be happy to help you find a convenient appointment time. Emergency situations are always given immediate attention.

Your Dental Care Starts With a Thorough, Gentle Exam and a Comprehensive Diagnosis

Dr. Goldstein and his helpful staff practices comfortable, health-centered dentistry with a strong emphasis on getting to know each of his patients. In addition to his technical proficiency, Dr. Goldstein is a careful listener and will explain beforehand what treatment is best for your individual needs.
